CONTINUED TRAINING

The Alliance française of Normandy offers training courses in french as a foreign language for expatriate employees: private courses, small group courses, à la carte courses, and online courses.

Face-to-face courses can take place at the company or at the Alliance Française of Normandy (Rouen, Le Havre, Cherbourg) from 8am to 8pm, Monday through Saturday included.

For each quote request, an audit and language assessment is carried out by specialised teachers in order to propose the training best suited to the constraints, needs and specific objectives of the employees and the company.

These training courses, certified by Qualiopi, are eligible for the CPF (Compte Personnel de Formation). They can also be validated by a Diplome de Français Professionnel (DFP). This diploma, created by the Chambre de Commerce et d'Industrie de Paris attests the employee's language skills according to their specific sector of activity: Business, International Relations, Tourism-Hotel-Restaurant and Health. The Alliance Française of Normandy is authorized by the CCIP to organize these exams.

For any request, please contact the Alliance Française on 02 35 98 55 99 or by email: contact@afnormandie.org

All our courses are aligned with the levels of the Common European Framework of Reference for Languages (CEFR) in order to ensure your continuous progress and to acquire an internationally recognised level of learning.

OUR LOW CARBON COMMITMENTS

Because we are aware that our activities, linked to international student mobility and therefore to air travel, have an impact on the environment, **we are now committed to a reduction of 5 to 6% per year in all our carbon emissions in Rouen, Le Havre and Cherbourg**, in line with the international objectives defined in the Paris Agreement (COP21).

Monitoring carbon emissions

AF Normandie, since 2022, has been monitoring and controlling the polluting emissions linked to its activities on a daily basis. Its associative model favours sobriety over CO2-emitting profits.

Selective sorting, transport and energy consumption
Since 2018, we sort and recycle all our waste. We do not use air-conditioning and control our water and gas consumption. Our teams use public transport, bicycles and electric vehicles.

Renaturation

Since 2019, a vast project of liberation from bitumen, re-plantation and enhancement of local natural species has been undertaken, with both educational and environmental objectives. AF Normandie participates each year in the UNESCO Man and the Biosphere Awards.

Societal responsibility of organisations

Every day, we are committed to having a positive social and environmental impact on the territory and internationally. We offer our members and the general public eco-friendly activities and trips. Our teams and our partnerships bring these values to life. Our business practices are fair and equitable.

TIPS FOR AN ECO-FRIENDLY STAY

1 Practising eco-mobility

2 Choosing your packagings (Gourd, ecocup...)

3 Eating according to the season

6 Eco-responsible consumption

5 Sorting your waste

4 Participate in eco-activities (gardening, clean walk, etc.)

7 Buying usefull and second hand

8 Using the right equipment

DID YOU KNOW?

Extending your stay and your course volume can indeed limit the impact by more than 10%, with an average of about 5kg less CO2 emissions per hour of class depending on the total length of your stay and your country of origin.
